

Installing and uninstalling the custom LibUSB driver to use ElectronWMD with Sony HiMD and Network Walkman devices

Installation:

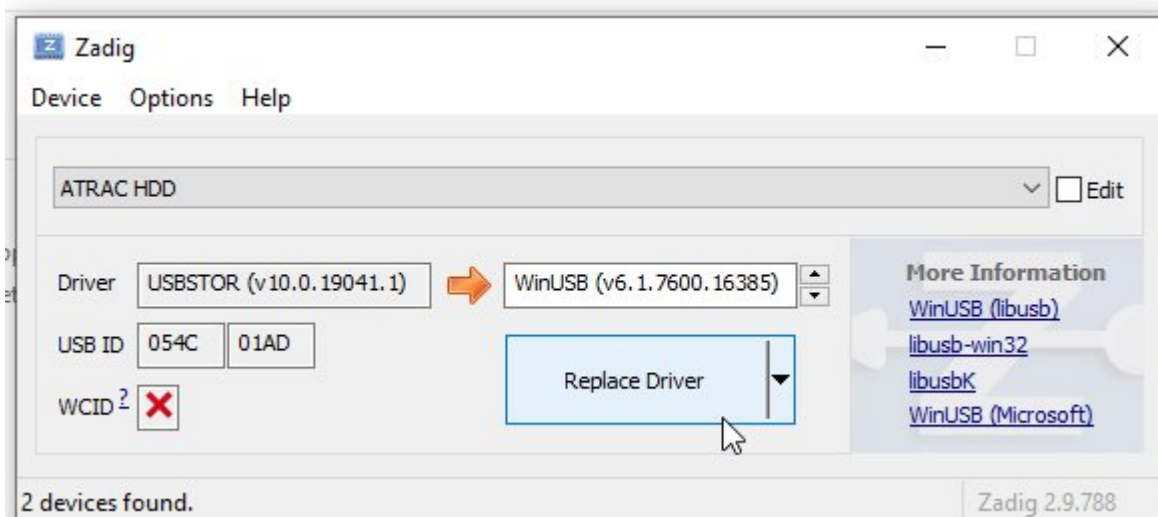

1. Download Zadig from <https://zadig.akeo.ie/>
2. Open Zadig
3. If prompted by Windows' UAC, agree:

4. Make Zadig list all devices:

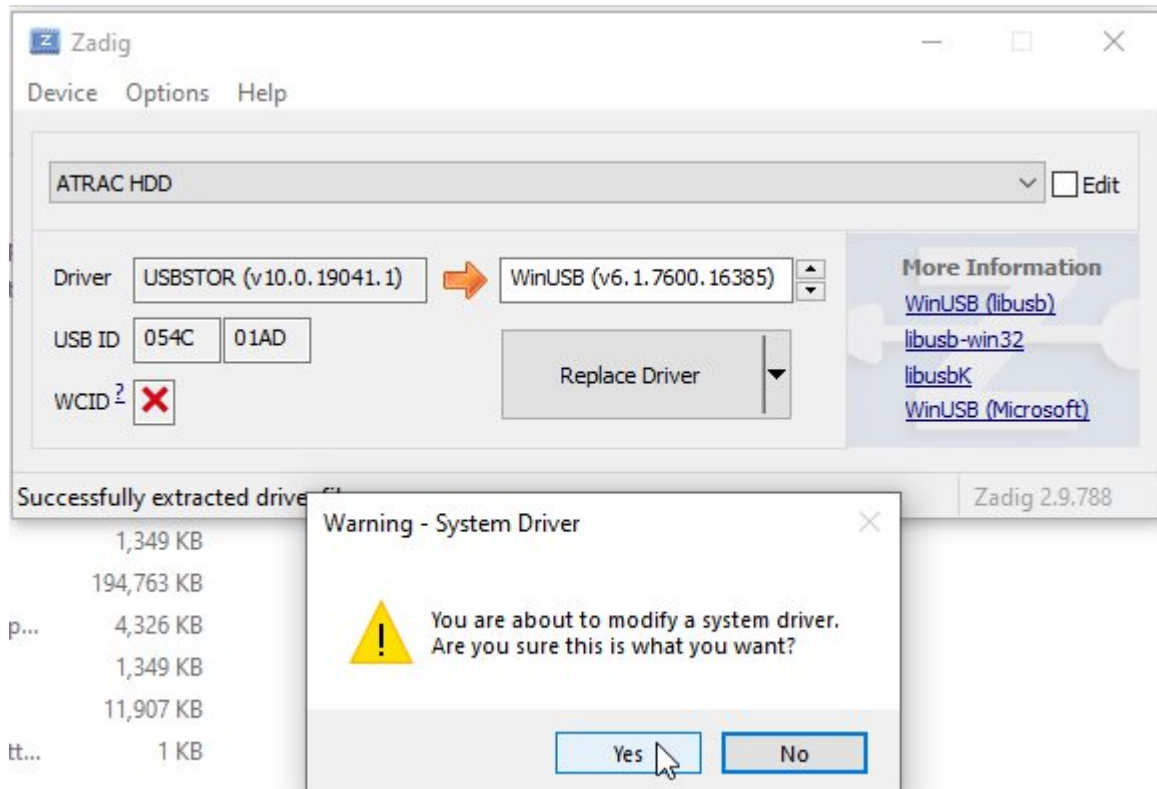

5. Select the correct device from the list (It should be ATRAC HDD or Sony HiMD)

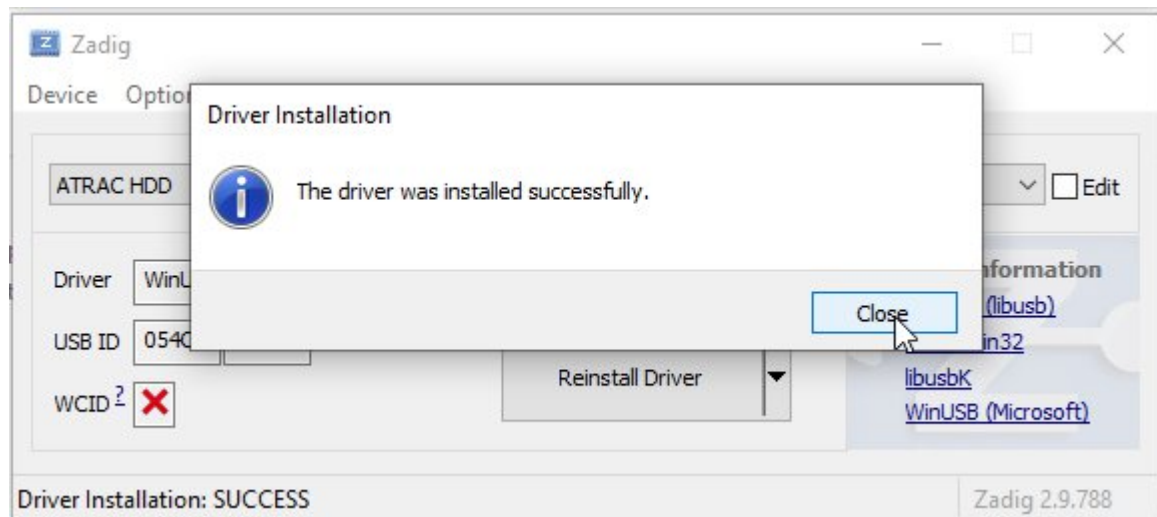

6. Click "Replace Driver"

7. If prompted to modify a system driver, agree:

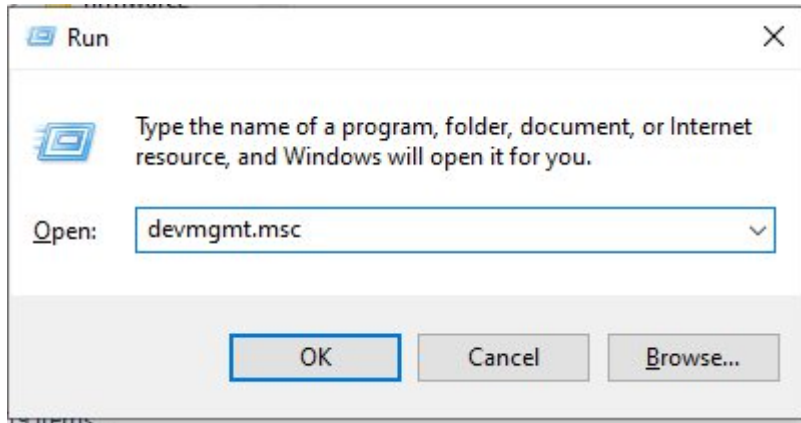

8. That's all!

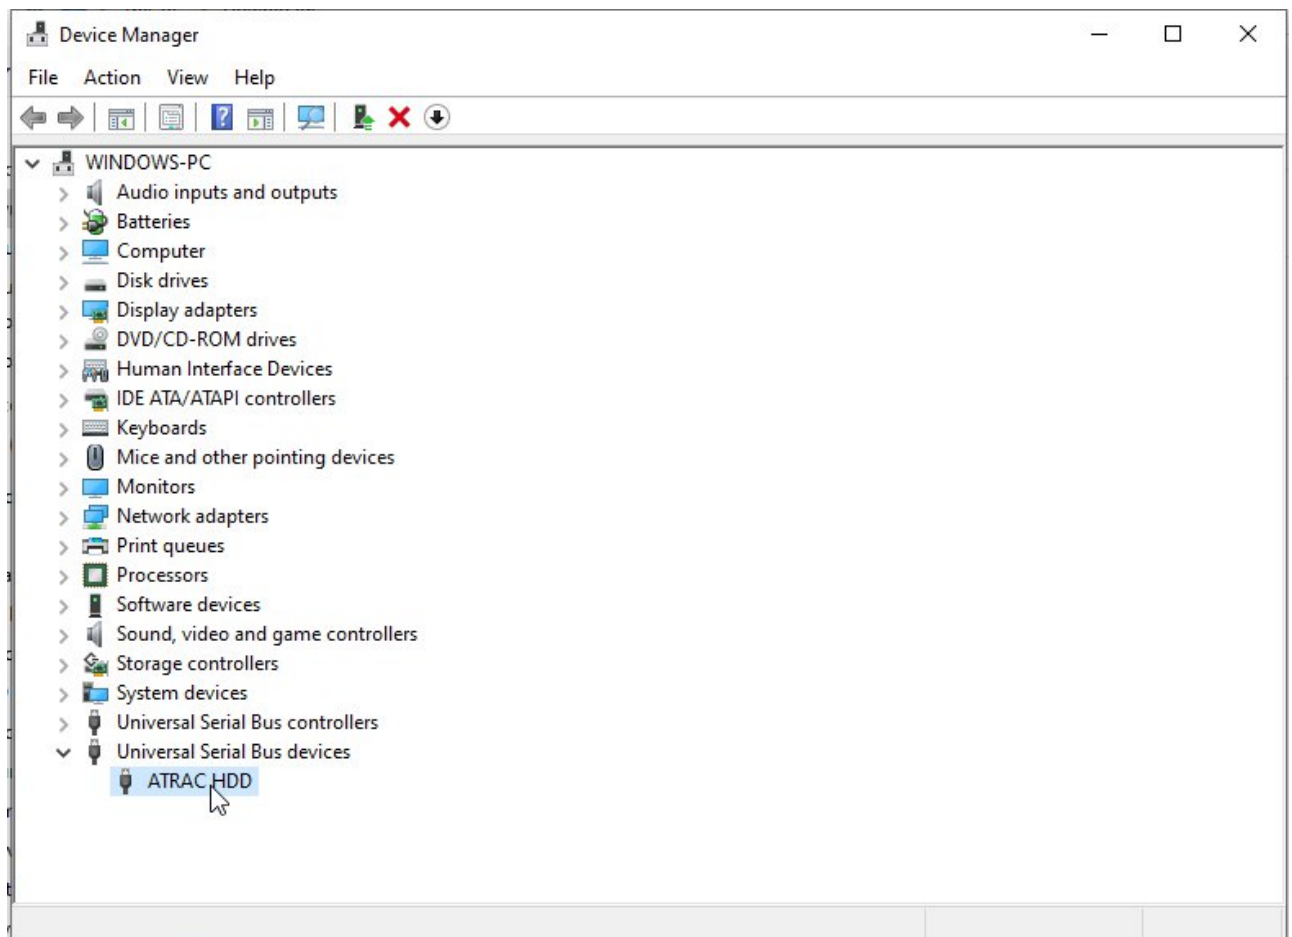

Removal:

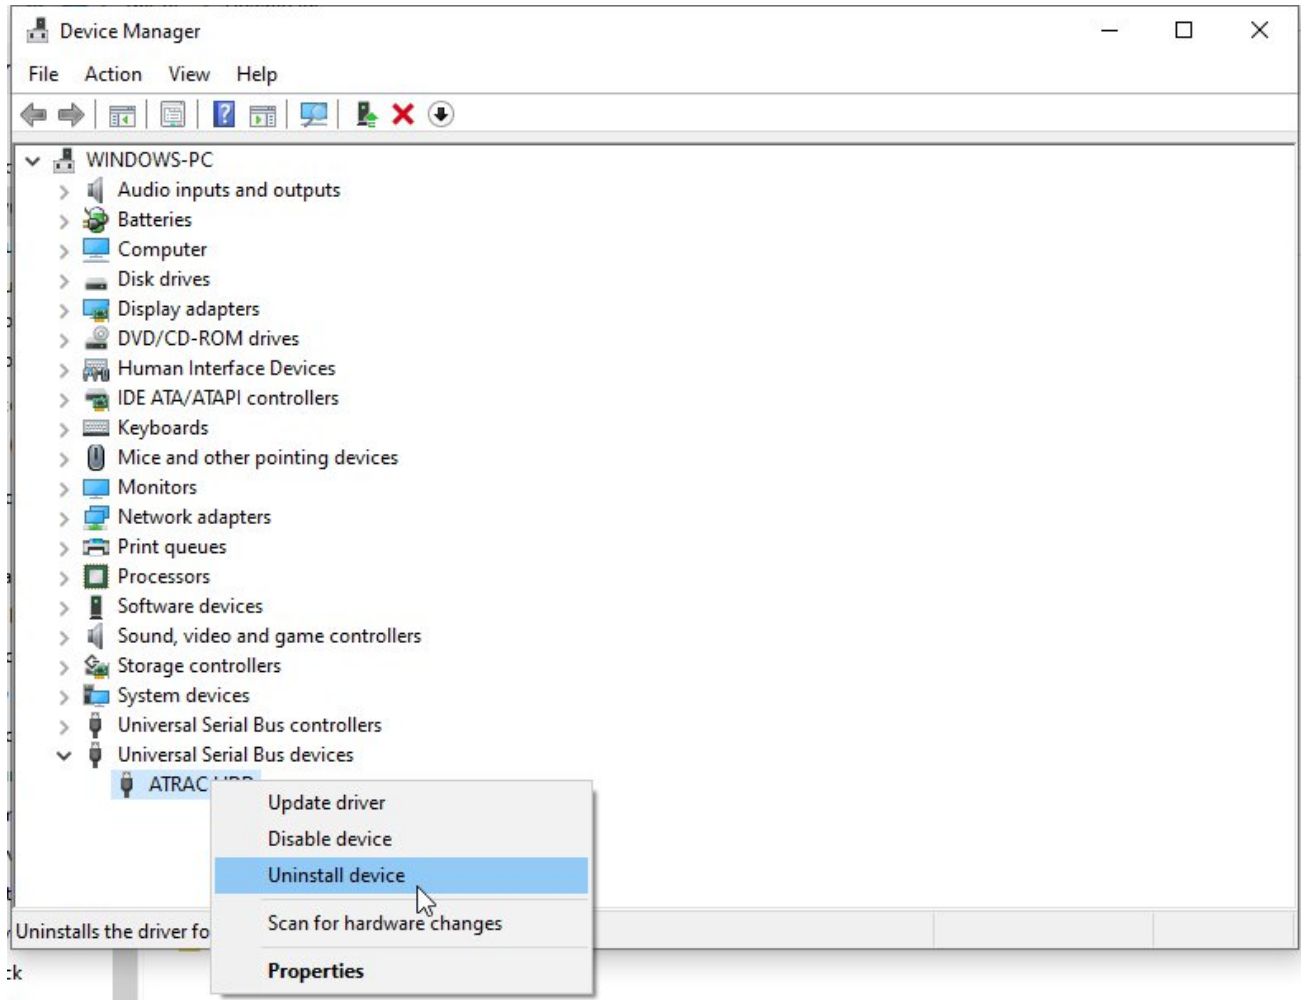

1. Press 'Windows + R' on your keyboard, to bring up the "Run" window.
2. In the dialog, enter `devmgmt.msc` as the name of the program:

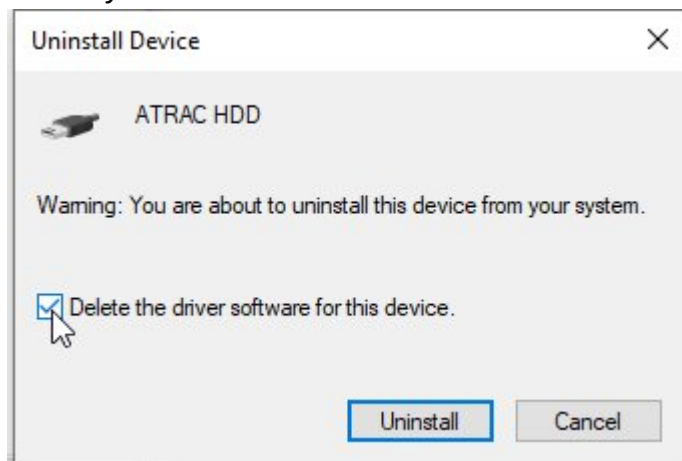

3. In the device manager window, find the "Universal Serial Bus devices" section, then expand it:

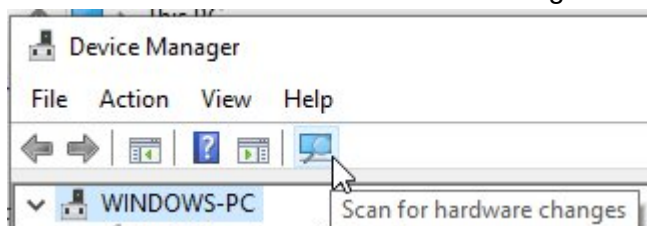

4. Right click on the device you wish to uninstall the driver for:

5. Select you also want to delete the driver software for it, then click “Uninstall”:

6. Refresh the list of devices in device manager:

7. Your device should get its stock driver loaded:
